Cemal Demirci

IT & Security Administrator MCSE | AI Lead Auditor @ Zero Density
İzmir, Türkiye

Summary

With over eight years of experience in information technology and broadcast engineering, I serve as an IT & Security Administrator at Zero Density, a leading company in virtual production and real-time graphic solutions. My expertise spans IT systems and media streaming, and I hold certifications from Fortinet, AWS, Microsoft, and Cisco, including Cisco cybersecurity certifications, reflecting my skills in network security, cloud computing, and cybersecurity.

At Zero Density, I manage on-premises Active Directory, Azure environments, Hyper-V and VMware infrastructures, network and firewall configurations, and system monitoring. Additionally, my experience in video streaming, recording, and broadcast technologies has grown significantly through projects for ACUNMEDYA, a prominent media company both in Turkey and internationally. I have contributed to the production and live broadcasts of high-profile shows such as the UEFA Champions League final, Survivor, Exatlon, and Amor En El Aire. I'm passionate about delivering innovative and high-quality IT solutions tailored to the media and entertainment industr
